

CPV PRAIRIE DOCK SOLAR

CPV Prairie Dock Solar is a proposed 300-megawatt (MW) photovoltaic (PV) solar project located on approximately 1,600 acres near Odell in Livingston County, Illinois.

Projected Economic Benefits

- Represents an estimated **\$507 million investment**
- Adds new, **long-term revenue** for Livingston County to support critical services for residents
- Creates over **400 jobs during construction**, paying millions of dollars in wages and benefits
- Invests millions of dollars in **network upgrades**, improving the grid, and the **availability of cost-efficient power** for Illinois households

Increased Local Production

- Up to **600,000 megawatt-hours (MWh)** of new generation annually
- Enough to power **57,100** average Illinois households

Responsible Development

- Supports local philanthropic initiatives with a focus on **addressing food insecurity, STEM education, and emergency responders**

Location	Illinois – Livingston County
Total Installed Capacity	300 MW
Start of Construction	Est. 2028
Commercial Operations	Est. 2029
Investment	\$507 Million
Electrical Interconnection	Dresden – Midpoint 345 kV

Competitive Power Ventures (CPV) has 25 years of unprecedented success in the development and operation of highly efficient and low emitting electric generation and renewable projects in the United States. CPV is focused on applying its development, financial and project management expertise to advance the next generation of technologies. After bringing on 6.8 GW of natural gas, wind, and solar generation since 2010 and with a current pipeline of over 10 GW of renewable and dispatchable generation projects, including utility-scale carbon capture, CPV is well positioned to help drive the nation's decarbonization goals forward.
